

Year 1 Home Learning Spring 2

Our Year 1 weekly home learning expectations are to read your eBook at home to an adult, at least 5 times a week. To share books with adults at home (be read too.)

You are also expected to complete at least one of these projects which you will bring in to present to the class. This term's home learning is a consolidation of last term's learning in school. You have already learnt about these areas so should be able to show off what you've already learnt! Deadline for these to be in school is Thursday 3rd April.

Maths

Look at the coins you can find in your house. What are they? Can you count them? How much money do you have altogether? Can you share the coins between your family? Who has the most coins? Who has the most money?

English

Try making your favourite food. Can you write the recipe for it so someone else could make it? What about if it was something disgusting, like a frogspawn jelly?

Science

Plant a sunflower/ bean seed or any seed you can find. Look after it. What does it need to grow? Observe it over time and take photos of it. Can you draw a picture of it and label the different parts?

Geography

What type of weather do we usually have in each of the four seasons in the UK?
Create a poster, fact file or book about each type of weather. Describe it, what would you need to wear? What might you do?
