

Year 4 Home Learning Spring 2

Our Year 4 weekly home learning expectations are:-

Read your school reading book five times per week.

Develop your times tables fluency using Times Table Rockstars (this is crucial as we edge closer towards our Multiplication Timestable Check).

Learn your spellings each week.

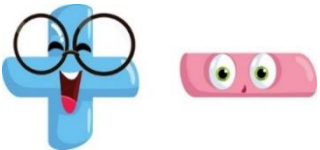

Learn your lines and the songs for the performance.

You are also expected to complete at least one of these projects which you will bring in to share with the class. This term's home learning is a consolidation of last term's learning in school. You have already learnt about these areas so should be able to show off what you've already learnt!

The deadline for one of the projects below is Thursday 3rd April.

Maths

Can you design a fun and exciting addition and subtraction game?

English

Can you research the history of chocolate? This could be a PowerPoint presentation or a poster.

Geography

Create a power point explaining where different types of foods come from in the world.

Where does the food for your dinner originate from?

Science

Bees are very important for plant reproduction and yet they are becoming more and more endangered. Can you create a 'save the bees' persuasive letter or poster?
