

Year 5 Home Learning Autumn 1

Our Year 5 weekly home learning expectations are:-

Read your school reading book five times per week.

Develop your times tables fluency using Times Table Rockstars

Learn your spellings each week.

You are also expected to complete at least one of these projects which you will bring in to present to the class.

The deadline for these to be in school is Monday 14th October 2024.

English

Take inspiration from 'Leon and the place between' to design a portal which transports people to a new world. This can be a 3D sculpture, painting or drawing (of both the portal and new world). Write a diary entry of someone going to live in a different world.

History

Through your own research and your learning in the classroom, create a fact file on the topic of 'The Tudors.' This could be created as a booklet or PowerPoint presentation.

Art

Create a memory book by collecting different materials and objects throughout this half term (this can include photos). Write a few sentences why each item is important to you.

Science

Linked to our topic of fossils, geological time and classification, you could research Mary Anning and create an informative poster based on her life work.
