

Netball Match Report – Chalk Ridge Vs St John's Primary School

On the 9th June, we hosted our final netball match of the year against St John's Primary School. After being disappointed with the result of our previous match against them, the team was determined to achieve a win this time.

In preparation, the children played friendly matches against each other to develop strategies and build confidence. We went into the game with a strong squad of 10 players, while the rest of the team provided fantastic support from the sidelines. Our after-school club was also out in force, cheering the team on throughout the match.

The first quarter was outstanding. The children moved the ball seamlessly from one end of the court to the other, finishing the quarter with a commanding 5–1 lead. The second and third quarters continued in the same impressive fashion, with every player showcasing their talent, teamwork and determination. By the end of the third quarter, we had extended our lead to 15–3.

Going into the final quarter with such a strong advantage, the team was beaming with confidence. We cannot express how proud we are of every single player. The ball spent much of the final quarter in our attacking end, and the team continued to play brilliantly, securing a fantastic **21–4 victory**.

Miss Trewin, Mrs Powell and Miss McCluskey would like to thank all the parents and carers for their support throughout the year, especially transporting children to away fixtures. We would also like to wish our Year 6 netballers the very best as they transition to secondary school.

Our last training of this academic year is on the 14th of July. Please encourage them to attend as we have some fun activities planned.

We look forward to welcoming our new team in September 2026. More details will follow soon!
